

# THE ACOUSTIC BOX

## WHAT IS THE ACOUSTIC BOX?

The Acoustic Box is a **soundproof box**, specifically for enclosing swimming pool equipment.

Our boxes have a unique state-of-the-art design which requires **less than 5 minutes to assemble** and without any special tools

The boxes come in **4 sizes** and **6 different colours**. Custom sizes & colours are also available on request

## EASY TO ASSEMBLE

Assembly takes on average 5 minutes - **NO NUTS & BOLTS, NO screws** or special tools required... **NOT EVEN ONE!**

There are only 3 different parts which simply click together in just a few minutes

The boxes can be assembled by one person with no building experience with illustrated installation instructions with every order

## SUPERIOR DESIGN

**Industrially engineered** to provide enhanced sturdiness yet lighter than other models on the market

Design provides more internal space and easy access

Made from thick (0.9 mm) galvanised steel

Ventilation gaps allow for air circulation without any water leaks or compromising noise abatement

Finished with quality thick powder coating

## SOUNDPROOF COMPLIANCE

The Acoustic Box is lined with high quality thick sound proofing foam. This generally translates into a **reduction of 70-80% in noise levels!**

The reduction is certified by an Acoustic Engineer report which is readily available

## SIZES

Standard size dimensions:

### Slim (XY-SL)

Internal Dimensions: 1595W X 1100H X 605D

External Dimensions: 1660W X 1145H X 660D

This model is designed primarily for use on the side of the house or in narrow spaces. It weighs approximately 60 kg in total and is designed to fit one filter, motor / pump, chlorinator and a solar heater.

### Small (XY-S)

Internal Dimensions: 1045W X 1100H X 1045D

External Dimensions: 1110W X 1145H X 1100D

This model weighs approximately 55 kg in total and is designed to fit one large filter, motor / pump and chlorinator.

### Medium (XY-M)

Internal Dimensions: 1595W X 1100H X 1045D

External Dimensions: 1660W X 1145H X 1100D

This model weighs approximately 65 kg and is designed to fit one large filter, motor / pump and chlorinator plus a solar heating pump.

### Large (XY- L)

Internal Dimensions: 2155W X 1100H X 1045D

External Dimensions: 2218W X 1145H X 1100D

This model weighs approximately 98 kg and is designed to fit a large filter and up to four pumps, solar heating, blower etc.

We also offer custom cut footing for all models. The footing is made from H3 treated timber and is cut to exact dimensions. The footings come with strap nails and are ready to assemble

In addition to our standard design, we also offer:

- ✓ Backless boxes for all sizes
- ✓ Boxes with side access
- ✓ Custom tailored solutions

In most cases there are no additional charges and we also have readily available stock in all colours.

## COLOURS

The Acoustic Box comes in 6 different standard colours:
