

# Showcase your Daisy

Venice

The Venice - Where Less is More - [www.daisypoolcovers.com.au](http://www.daisypoolcovers.com.au)

## The Venice - Where less is more

The Venice in-ground roller is perfect if you are looking to buy a Daisy pool cover, but not alter the look of a designer garden, as it operates discreetly out of sight.

Operation wise, the Venice is a breeze. It opens, closes, rolls and unrolls the cover at the press of a button. Aside from a simple pin and release, all the functions are fully automated with an inbuilt battery and solar power source. No dangerous leads.

At Daisy, we pride ourselves on quality, so it should be no surprise that the Venice has been made using strong, durable materials, which will withstand the harsh Australian climate.

Your pool deserves a Daisy Showcase so go to: [www.daisypoolcovers.com.au](http://www.daisypoolcovers.com.au).
