

PoolVac Classic[®]

AUTOMATIC SUCTION CLEANER
It's Reputation is Spotless

- Exclusive AquaPilot™ — Programmed steering moves the cleaner silently in a predetermined series of turns for more thorough cleaning. It's powered by your existing filtration system so you don't have the expense of an energy-consuming booster pump.
- Quality, Durability & Longevity - After more than 30 years, pool owners continue to choose proven reliability above all else.
- Silent Operation — No pulsating hoses or noisy parts, for a peaceful pool environment.
- Easy to use — Connects in less than 10 minutes to skimmer or suction port.

PoolVac Classic®: For Your Swimming Pool

High-Flow Hose

- Reduces hydraulic friction for efficient operation
- No bags to empty or replace
- Powered by existing filtration system

Classic Head Design

- Original design from 1983, engineered for performance.
- Turbine-drive system for smooth, silent operation

Vacuum Wings

- Downdraft design captures pollen, sand, twigs, leaves and pebbles

Adaptive Steering Assembly

- Guides the hose as programmed steering maneuvers the cleaner around the pool, eliminating hose tangles.

Advanced Pod Propulsion

- Eliminates the need for wheels and belts
- Consistent performance and long life

*Swimming pools with a tiled surface require special order shoes 20-AXV014CP. *Swimming pools with a vinyl lined surface require special order shoes 20-AXV413P.

Features of the Hayward® PoolVac Classic® automatic pool cleaner:

- Advanced suction technology using pool's existing filter system.
- Silent operation without pulsating hoses or noisy components.
- Easy to use and connects in only 10 minutes to skimmer box.
- AquaPilot™ programmed steering for a completely clean pool.
- Optional deluxe leaf canister available as an add on.
- Works well on energy saving low pump speeds.
- Special shoes for every surface, concrete/fibreglass, tiled & vinyl.
- A trusted best selling product, worldwide for over 30 years.

Intelligent cleaning every time with AquaPilot™ technology.

The Hayward® PoolVac Classic® is a smart choice for all types of in-ground pools. Exclusive AquaPilot™ technology makes PoolVac Classic® faster and more efficient than any random style pool cleaner. PoolVac Classic® moves in a predetermined series of right and left turns to systematically provide thorough coverage of your pool's surfaces. Pool owners will value the ability of the PoolVac Classic® to clean their pool in an intelligent manner. Compared to other suction cleaners, the PoolVac Classic® technology also allows for silent operation. You can enjoy a pleasant and peaceful pool environment even when the PoolVac Classic® is hard at work.

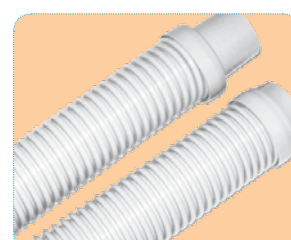

Optional leaf canister connects in-line, trapping leaves and debris before reaching the pool's filter system.

This optional rugged extra-large canister with mesh bag traps heavier loads of leaves and debris. Easy-open lid provides quick access.

AquaPilot™ programmed steering moves cleaner silently in a pre-determined series of turns for more thorough cleaning.

High flow durable leader and connector hoses designed to reduce hydraulic friction for efficient operation.
